NOTICE TO: Orchard Homeowners

We have received a few inquiries regarding when the county will return to complete the work that was started to repave the roads within the subdivision a couple of weeks ago. The last piece of this work is to lay down road base. This activity will occur next week between Tuesday and Friday. The county will post signs again the day before the work is to begin. The county met with the Board today and let us know that at this time, generally speaking they do not intend to fill with road base if you have decorative rock in the 'right of way'. Please note: the 'right of way' belongs to the county and is generally six feet from the edge of the street/pavement.

This work is directly related to the repaving activities that were completed last week.

If you have questions or concerns related to the activity planned for next week please feel free to reach out to any member of the board via the e-mails on the website.

Disclaimer: The Orchard HOA Board of Directors is in no way responsible for any activities, work or communications initiated and/or completed by the county. This communication is a courtesy to the homeowners of the Orchard Subdivision.
